

Jaya Suriya

Product Designer | UI/UX Designer

4+ Years Experience

Professional Summary

Product Designer with 4+ years of experience designing web, mobile, and enterprise products across SaaS, logistics, healthcare, rewards, and digital platforms. Experienced in transforming complex requirements into intuitive user experiences through UX research, information architecture, user flows, wireframing, prototyping, interaction design, usability testing, and high-fidelity UI design.

Strong hands-on experience with Figma, ProtoPie, and Adobe XD, with growing expertise in AI-assisted design and front-end development using HTML, CSS, and JavaScript. Independently conceptualized and launched Cross-World, a functional web product combining UX, interaction design, logical functionality, AI-assisted development, GitHub deployment, domain setup, and hosting.

Professional Experience

UI/UX Designer

10Decoders | Jan 2025 – Oct 2025

- Led the redesign of legacy **Oracle applications** to align with modern UX practices and visual trends.
- Conducted stakeholder interviews, user surveys, and usability testing to gather requirements and iterate on designs
- Created interactive prototypes and visual mockups using Figma and ProtoPie
- Defined and optimized information architecture, user flows, and navigation systems for improved task efficiency.
- Collaborated with cross-functional teams including developers and project managers to ensure pixel perfect implementation
- Developed animated and interactive prototypes to communicate micro-interactions and transitions.
- Revamped the **10decoders** website with a focus on usability, visual hierarchy, responsive behavior, and modern interaction patterns.

UI/UX Designer

Revolite | Sep 2021 – Jan 2025

- Worked across multiple digital products and client-facing experiences.
- Revamped **Revolite** and **Mukizh** websites with a focus on usability, visual consistency, responsive design, and modern UI patterns.

Core Skills & Tools

UX Skills

User Research · Persona Creation · Journey Mapping · Wireframing · Prototyping · Usability Testing · A/B Testing · Interaction Design · Information Architecture · Accessibility Design · Responsive Design

UI & Visual Design

High-Fidelity UI Design · Typography · Color & Visual Hierarchy · Layout & Grid Systems · Component Design · Responsive Web & Mobile Design · Accessibility-Aware Design

AI & Front-End

AI-Assisted Product Design · AI-Assisted Prototyping · AI-Assisted Front-End Development · HTML · CSS · JavaScript · GitHub · Domain & Hosting

Design Tools

Figma · Sketch · Adobe XD · Adobe Photoshop · Adobe Illustrator · ProtoPie · Miro · Framer

AI Tools

ChatGPT · Claude · Figma AI · Creatie.ai · Relume · v0.dev · Framer AI · Gemini · Claude

AI-Assisted Design

UX Research Support · Design Ideation · Rapid Wireframing · UX Writing · Design Documentation

Soft Skills

Creative Problem Solving · Critical Thinking · Collaboration · Communication · Time Management · Project Planning

- Designed experiences for complex operational workflows involving warehouse management and logistics.
- Contributed to an internal Warehouse Management System for **Emiza**.
- Worked on user flows, wireframes, prototypes, UI systems, and interaction patterns.
- Collaborated with cross-functional teams to convert business requirements into user-focused interfaces.

SELECTED PRODUCT EXPERIENCE

Warehouse Management SaaS

- Designed workflows for inventory, orders, cycle counts, RTO, configuration, and warehouse operations.
- Worked across multiple user roles including movers, pickers, scanners, and packers, designing task-focused mobile experiences and operational interfaces.

SWERVE 2.0 – Virtual Events Platform

- Designed experiences for a U.S.-based virtual platform supporting job fairs, trade fairs, conferences, and summits.
- Focused on information architecture, visual hierarchy, responsive layouts, and interactive prototyping.

Healthcare / HMS Product Redesign

- Redesigned a legacy medical application while retaining its complex data requirements.
- Conducted user interviews and competitive analysis before restructuring information architecture and creating improved workflows and prototypes using Figma and ProtoPie.

INDEPENDENT PRODUCT PROJECT

Cross-World – Interactive Crossword Puzzle Platform

Product Concept • UX/UI • Front-End • AI-Assisted Development • Deployment

Website: <https://cross-world.in/>

Conceptualized and independently developed Cross-World, an interactive crossword puzzle platform based on an original product idea.

- Defined the product concept, user experience, and interaction model.
- Designed the interface and interaction patterns with a product-focused approach.
- Implemented functional interactions and logical puzzle behavior.
- Used AI-assisted development to accelerate HTML, CSS, and JavaScript implementation.
- Connected design decisions with functional front-end execution.
- Managed GitHub-based deployment, domain setup, and website hosting.
- Built a shareable product experience rather than a static visual concept.
- Explored the complete journey from idea → UX → UI → functional prototype → deployment.

Education

Karpagam University, – B.E Mechanical June 2015 – May 2019

Certifications

Foundations of User Experience (UX)

Design – Google | Sep 2022
